SAP TECHED 2026 · DA160

Desk card 01

PARTICIPANT
teched.user01@sapteched.training

0 Sign in to Hub

HUB URL	`https://test-usg.reltio.com/ui/Dfmuh97ggDbBEIo`		
TENANT	`Dfmuh97ggDbBEIo`	USER	`teched.user01@sapteched.training`
PASSWORD	**`TechEd!Train01`**		

Use Chrome. If Hub asks you to pick a tenant, choose **Dfmuh97ggDbBEIo**. On first sign-in, enroll an authenticator app. This address does not receive email codes.

Git repo for every participant: `https://github.com/SAP-samples/teched2026-DA160`

1 Load your organizations

YOUR FILE	`exercises/ex1/Training_User_01/SAP_Org.csv`		
MAPPING	`exercises/ex1/Load_Mappings_Ops.xlsx`		
ENTITY TYPE	Organization	JOB NAME	`Desk01-SAP-Org`

Header row on. Delimiter comma. **Partial Update**. Source system **SAP**. Crosswalk value column **SourceID**. The file has 10 organizations. Do not load another desk's folder.

2 Search the organizations you loaded

1. Quick filter: entity type **Organization**.
2. Advanced Search, combined with **And**:
   - **Source System Name** equals **SAP**
   - **Name** contains **Amber Ventures**

You should see these three, and not the rest of the tenant:

- Amber Ventures Inc
- Amber Ventures Incorporated
- Amber Ventures Inc.

Open one profile and check the source. Crosswalk type is SAP. One value is `TE01-ORG-MATCH-01`.

3 Match the organizations you loaded

Open **Amber Ventures Inc**, then **Profile → Potential Matches**.

MERGE	**Amber Ventures Incorporated** is the same company. Both use Tax ID `11-1000190`.
SAME COMPANY	**Amber Ventures Inc.** also uses Tax ID `11-1000190`. Merge it if you want one profile. Do not mark it Not a Match.
NOT A MATCH	**Amber Systems 01-01** is a different company (Tax ID `11-1000101`). Mark Not a Match only if it appears on the list. Stop after one merge and one Not a Match.

One desk only. Do not share this card or leave the password on a shared screen.
