SAP TECHED 2026 · DA160

# Desk card 23

PARTICIPANT
**teched.user23@sapteched.training**

## 0 Sign in to Hub

| | | | |
|---|---|---|---|
| HUB URL | `https://test-usg.reltio.com/ui/Dfmuh97ggDbBEIo` | | |
| TENANT | `Dfmuh97ggDbBEIo` | USER | `teched.user23@sapteched.training` |
| PASSWORD | **`8cGm$dGanJKp58`** | | |

Use Chrome. If Hub asks you to pick a tenant, choose **Dfmuh97ggDbBEIo**. On first sign-in, enroll an authenticator app. This address does not receive email codes.

Git repo for every participant: `https://github.com/SAP-samples/teched2026-DA160`

## 1 Load your organizations

| | | | |
|---|---|---|---|
| YOUR FILE | `exercises/ex1/Training_User_23/SAP_Org.csv` | | |
| MAPPING | `exercises/ex1/Load_Mappings_Ops.xlsx` | | |
| ENTITY TYPE | Organization | JOB NAME | `Desk23-SAP-Org` |

Header row on. Delimiter comma. **Partial Update**. Source system **SAP**. Crosswalk value column **SourceID**. The file has 10 organizations. Do not load another desk's folder.

## 2 Search the organizations you loaded

1. Quick filter: entity type **Organization**.
2. Advanced Search, combined with **And**:
   - **Source System Name** equals **SAP**
   - **Name** contains **Willow Components**

You should see these three, and not the rest of the tenant:

- Willow Components Inc
- Willow Components Incorporated
- Willow Components Inc.

Open one profile and check the source. Crosswalk type is SAP. One value is `TE23-ORG-MATCH-01`.

## 3 Match the organizations you loaded

Open **Willow Components Inc**, then **Profile → Potential Matches**.

| | |
|---|---|
| **MERGE** | **Willow Components Incorporated** is the same company. Both use Tax ID `33-1002390`. |
| **SAME COMPANY** | **Willow Components Inc.** also uses Tax ID `33-1002390`. Merge it if you want one profile. Do not mark it Not a Match. |
| **NOT A MATCH** | **Willow Cascade 23-01** is a different company (Tax ID `33-1002301`). Mark Not a Match only if it appears on the list. Stop after one merge and one Not a Match. |

One desk only. Do not share this card or leave the password on a shared screen.
